CALYPSO®

EST 1982

Calypso MFG is a well-established Maltese company specialising in high-quality outdoor shading solutions since 1982. With over 40 years of experience, the company offers a comprehensive range of customised solutions designed to enhance comfort, protection, and style in both residential and commercial outdoor spaces.

OUR PRODUCT RANGE INCLUDES

- Retractable awnings
- Custom-built outdoor shading structures
- New Cristal and Triple Glass enclosures
- Adjustable custom louver systems
- Durable large-scale umbrellas
- Commercial and hospitality shading solutions
- Pergola systems
- Shade Sails
- Decking solutions

Awnings

Our custom-made outdoor awnings provide reliable sun and rain protection while enhancing the look of any outdoor space. Suitable for both residential and commercial areas, awnings come in a wide range of styles, materials, and colours and can be customised with your brand or logo. Choose from free-standing or fixed-frame solutions for permanent installations. Made using premium Tempotest fabrics known for durability and weather resistance, all our awnings are backed by an 8-year guarantee against colour fading. Optional add-ons include LED lighting, motorised operation, and protective plastic curtains.

Pergolas

Enhance your outdoor living with our custom-made, waterproof pergolas, designed for year-round use in residential and commercial spaces. Made-to-measure from durable, weather-resistant materials, our pergolas provide reliable shade and protection while adding a modern, stylish touch to terraces, gardens, and business premises. Optional features include LED lighting and Somfy motorised operation. Each pergola comes with professional installation and a 5-year guarantee.

Louvers

Our adjustable custom louvers provide flexible sun, shade, and rain protection throughout the year. Ideal for terraces and commercial outdoor areas, the louvers allow easy control of light and ventilation. Made from high-quality, weather-resistant materials, they are fully customisable with optional add-ons, combining modern design with long-lasting durability.

Umbrellas

Our custom-made umbrellas offer reliable protection from sun, wind, and rain, perfect for residential and commercial outdoor spaces. Available in a wide range of colours and styles, they feature exceptional UV protection and are manufactured from premium weather-resistant materials. Wind-resistant options ensure stability and shelter in all conditions.

New Cristal & Triple Glass

New Cristal and Triple Glass provide durable, transparent wind-blocking solutions to protect pergolas and outdoor spaces without compromising visibility.

The vertical windproof awning system features a secure manual locking mechanism and reinforced fabric for enhanced resistance to strong winds.

Innovative concealed welding and anti-draught seals ensure excellent protection and year-round comfort.

New Cristal is available in PVC or fully transparent finishes, and can be integrated with pergolas, bioclimatic systems, awnings, or wooden gazebos. Both manual and motorised options are available.

Sliding Doors & Folding Systems

Glass covers and structures offer a modern, elegant solution for protecting outdoor and indoor-to-outdoor spaces while maintaining uninterrupted views. Durable and easy to maintain, glass structures allow natural light to flow freely, creating bright, open environments that remain sheltered from the elements. Ideal for enhancing outdoor living areas or creating a seamless transition between interior and exterior spaces, glass systems combine functionality, elegance, and long-lasting performance.

Gazebos

Our gazebos provide versatile shelter for residential and commercial outdoor spaces. Perfect for relaxation or social gatherings, they come in a variety of styles, sizes, and colours, and are fully customisable. With expert guidance from design to installation, we ensure a seamless process and a result that combines functionality, comfort, and visual appeal.

Sails

Our custom shade sails offer a modern solution for creating comfortable shaded areas outdoors. Made from high-quality, UV-protective fabrics, they provide effective sun protection while enhancing the look of gardens, terraces, and commercial spaces. Fully customisable in shape, size, and colour, shade sails are durable, weather-resistant, and blend style with function.

Somfy Tahoma

Control all your motorised shading, and devices from one smart switch. Use the TaHoma app to operate your awnings, pergolas, and more from anywhere, with a tap or voice command. Create custom routines like 'Good Morning' or 'Evening Relax' at a single touch. Compatible with Apple Home, Google Home, and Alexa.

TESTIMONIALS

Very efficient service from ordering till installation. Excellent communication, with helpful and lovely staff. **Highly recommend.** Genuinely one of the best companies we've worked with for our place!

Everything was smooth, well done!

C. Guillaumier
